

ARMAMENT / / DUTY PISTOL

PX-19 FOXBAT

Striker-Fired 9 × 19 mm Duty Pistol
Sovereign Canadian Production

The only pistol designed and manufactured in Canada, built on the most widely fielded duty-pistol pattern in service. A CNC-machined aluminium frame with steel inserts replaces polymer, while pattern-conformant geometry keeps your holsters, magazines, sights and armourer tooling in service. Adopt the weapon without re-equipping the force.

01 SOVEREIGN CANADIAN SUPPLY

Designed, engineered and machined in Canada on FeralX's own precision CNC capacity. A single national export authority governs every shipment, and the supply chain from raw stock to finished weapon sits under Canadian control.

03 ALUMINIUM FRAME, STEEL INSERTS

A CNC-machined aluminium frame with hardened steel inserts in place of polymer — greater rigidity, a flatter recoil impulse and a longer service life. The frame is repairable and refinishable rather than a consumable, lowering whole-of-life cost across a large fleet.

02 PATTERN-CONFORMANT BY DESIGN

Dimensionally conformant to the G19-class duty pattern. Existing holsters, magazines, sights, weapon lights and armourer tooling carry straight over — no re-equipping, no parallel spares inventory, and instructors retain the manual of arms already trained.

04 PROVEN AT NATIONAL SCALE

Selected for a 30,000-unit national police contract, with export permit issued and deliveries phased. Weapons are in production and shipping today, on capacity contracted to scale from 1,000 to 4,000 units per month.

02 TECHNICAL SPECIFICATION

DESIGNATION	PX-19 FOXBAT
ACTION	Striker-fired, short recoil
BREECH	Locked, tilting barrel
CALIBRE	9 × 19 mm NATO
OVERALL LENGTH	185 mm / 7.28 in
SLIDE LENGTH	174 mm / 6.85 in
HEIGHT, WITH MAGAZINE	128 mm / 5.04 in
OVERALL WIDTH	34 mm / 1.34 in
SLIDE WIDTH	25.5 mm / 1.00 in
BARREL LENGTH	102 mm / 4.02 in

MAGAZINE CAPACITY	15 / 12 / 10 rounds
RIFLING TWIST	250 mm RH / 1:9.84 in
SIGHT RADIUS	153 mm / 6.02 in
TRIGGER REACH	70 mm / 2.76 in
TRIGGER PULL	26 N / ≈ 5.8 lbf
WEIGHT, WITHOUT MAGAZINE	620 g / 21.9 oz
WEIGHT, MAGAZINE LOADED	865 g / 30.5 oz
FRAME	CNC aluminium, steel inserts
SLIDE	Machined steel, nitrided
SAFETIES	Trigger, firing pin, drop
ACCESSORY RAIL	MIL-STD-1913 pattern

CONFIGURATION OPTIONS

THREADED BARREL VARIANT CODE

BARREL	EXPOSED BEYOND SLIDE	OVERALL LENGTH
115 mm / 4.53 in	13 mm / 0.51 in	198 mm / 7.80 in
THREAD PITCH	SUPPLIED WITH	
1/2 × 28 UNEF or M13.5 × 1 LH	Thread protector	

Holster clearance: the threaded barrel adds 13 mm to overall length. Open-muzzle holsters accept it without modification; closed-end holsters require a muzzle-clearance cut. **Muzzle devices:** suppressor and compensator fitment is arranged by the end-user, subject to separate authorisation.

OPTICS-READY SLIDE VARIANT CODE

INTERFACE
Milled slide cut + adapter plate, fasteners supplied
PLATE PATTERNS
Trijicon RMR · Leupold DeltaPoint Pro · Aimpoint ACRO · Shield RMSc · custom plates to order

INTEROPERABILITY

- **Holsters:** accepts duty and concealment holsters cut for the G19 pattern.
- **Magazines:** pattern-standard magazine well; existing fleet magazines stay serviceable.
- **Training:** identical manual of arms — no instructor requalification on transition.

SUSTAINMENT

- **Spares packages** scaled to fleet size, holdings by echelon quoted per contract.
- **Armourer training** in-country or at the Canadian facility; materials in English and Arabic.
- **Technical publications:** operator, unit and depot-level manuals supplied.

ORDERING

- **Marking:** customer serialisation, crest and unit marking at manufacture.
- **Packaging:** individual or bulk transit packing to specification.
- **Lead time** quoted against order quantity and production allocation.

CLASSIFICATION, EXPORT & COMPLIANCE

- The PX-19 is classified as a restricted firearm under Canadian law.
- It may be exported to any country not subject to Canadian sanctions or embargo, under an export permit issued for the specific end-user and quantity.
- Sales are made exclusively to sovereign governments, armed forces and law-enforcement agencies, on end-use and end-user certification before award. FeralX manages permitting per contract and maintains compliance controls across production and delivery.

Specifications are nominal, are rounded and do not reflect manufacturing tolerances, and are subject to change without notice. Dimensional data reflects the G19-class duty pattern to which the PX-19 conforms; final acceptance figures are those recorded on the contract technical data package. Nothing in this document constitutes an offer to sell. Export is subject to Canadian export permitting and to applicable sanctions and embargo measures. Distribution restricted to government, military and law-enforcement recipients. © 2026 FeralX Systems Inc. All rights reserved.
